

TACTM Stick

Shock Protection. Detects AC Current.

The TACTM Stick is essential equipment for:

- Fire & Rescue
- Industrial Maintenance
- Situation Assessments
- Energy Field Verification

Day or night, TACTM Stick helps keep you safe on the front line. Simple to use, this lightweight, hand-held AC current-sensing device can be used in natural disaster situations, transportation accidents, and other emergency rescue operations.

Three settings – high sensitivity, low sensitivity and front focused – TACTM Stick enables you to sense AC currents from near or far, providing one of the most effective tools on the market today.

- ⚡ Audio and visual danger signals.
- ⚡ Rugged PVC plastic outer housing – lanyard and rubber grip.
- ⚡ Batteries included.
